WORK EXPERIENCE

MetNet | 2025 - 2026 (1 year)

Technical Leader - Frontend Developer

- Led frontend development for multiple web projects, ensuring scalable and maintainable code using modern technologies.
- Aligned efforts between design, backend, and frontend teams to guarantee efficient collaboration and consistent user experiences.
- Translated business needs into actionable tasks and delivered features on time.
- Facilitated communication, managed progress updates, and ensured project milestones were met.
- Provided technical mentorship, reviewed code, and promoted best practices to maintain high-quality standards across the team.

Innclod | 2025 - 2026 (6 months)

Frontend Developer

- Developed and maintained modern web interfaces, ensuring performance, scalability, and responsive design.
- Collaborated with cross-functional teams to integrate RESTful APIs and implement data-driven features.
- Participated in code reviews, version control, and continuous improvement following agile practices.

Good Creatividad para el Desarrollo | 2025 - 2025 (6 months)

Web Developer

- Maintenance and continuous improvement of websites developed with WordPress and Elementor, ensuring optimal functionality, design consistency, and performance.
- Implementation of bug fixes, enhancements, and updates to existing platforms to improve usability and meet client requirements.
- Development of new website sections and functionalities, adapting existing systems to evolving business needs.
- Creation of fully new websites from scratch, following modern design and SEO best practices to ensure scalability and user engagement.

Creative Innovation Company | 2024-2025

Full Stack Developer

- Development and maintenance of web applications using Angular and React, ensuring responsive design and high performance.
- Integration and automation of workflows using tools like Zapier, Make, and n8n, streamlining business operations and reducing manual tasks.
- Creation and maintenance of RESTful APIs using PHP, NestJS, Java and Spring Boot to enable seamless integration between front-end and back-end services.
- Development and experimentation with AI-powered assistants and automation agents for tasks such as customer support, lead generation, and content generation.
- Implementation of Python scripts for AI-related tasks, data processing, and integration with external APIs and services.

WORK EXPERIENCE

Belcorp - External advisor | 2023-2024

Full Stack Developer

- Developed new landing pages for over 12 countries using Angular ,React and Gatsby, implementing responsive components and reactive forms to enhance user engagement and localization.
- Managed deployment across multiple environments, including creating new branches, preparing release notes, and resolving code conflicts and bugs to ensure smooth functionality and integration with Google Analytics tracking.

MetNet | 2022-2023

Fronend Developer

- Development of web applications using Angular, ensuring high performance and responsive design.
- Creation and integration of RESTful APIs, connecting front-end applications with back-end services.
- Implementation of unit and integration testing using frameworks like Jasmine and Karma to ensure code quality and reliability.

Freelance Web Developer | 2020-2022

Full Stack Developer

- Development of web applications using various JavaScript frameworks such as ReactJS and Angular.
- Creation of APIs using technologies like NodeJS and Firebase.
- Implementation of testing and quality control in applications.

Web Developer | 2017-2019

Full Stack Developer

- Development of various pages and multimedia content in content management systems like WordPress.
- Migration of pages and content to the React framework as part of a technology update for the company.
- Optimization of website performance and user experience through regular updates and improvements.
